TSD_2017Modeling&AttainmentDemonstration.pdf
TSD_ExceptionalEventFlagging.pdf

Also, I have attached the TSDs as part of the Denver O3 SIP. The first was written mostly by Pat Reddy on the flagging of EE. The second is the attainment domenstration. In Section 4 of the attainment demo is how EE can be used as part of the WOE for the attainment demos.
(note: both will be submitted to EPA for SIP approval.)

I attached a doc that we (mostly Pat Reddy and Ryan M.) compliled on resources for SI analysis.

I think it would be useful to have a workgroup that compiles data near real time for any fire or SI events that might be flagged as EE.

Thanks,

Gail

Thanks Tom. Do you want to initiate the call, or should I? (using the "level 3" chairperson and accounting code you sent a while ago). I presume you'll do it since that's what we've done in the past, but let me know if that's not what you had in mind.

Hi, all – at long last, here's the EE regional data doc. I made a little table for Gail and Kevin to fill in if you have time.

I will go ahead and send the current workplan to the Work Group for item 2 and then Kevin or Gail and "reply all", or I will sent the EE doc in its current form prior to the call. Thanks

Agenda

1)   Welcome and Roll Call – Mike

2)   Status of workplan review, any further edits, ask for approval (Tom will send to WG) – Kevin

3)   Have an open discussion about the "Background Ozone Workshop" – Gail

4)   Review "regional technical data resources for exceptional events analysis" document – Tom

5)   Announce Western Modeling Workshop date of Sept. 6-8 at NCAR Center Green (note organizing committee and opportunity to volunteer) – Tom

6)   Next call proposed for week of May 8th, use Doodle Poll - Tom
